- Get white label reports with your logo every month like clockwork.
- Add SEO to your offerings and position yourself as a larger marketing firm.
- Billing is completed your end, fulfilment and results ours.
- Month to month, prepaid with no lock in contracts.

REFERRAL

Referring your clients to us for SEO gives you the freedom to increase your monthly profits while we take care of billing, fulfilment, reporting and results.

- Gain an extra income stream from your clients that pays every month.
- You get money deposited into your bank account every month.
- Add SEO to your offerings and position yourself as a larger marketing firm.
- We take care of everything from billing, reporting and results.
- Month to month, prepaid with no lock in contracts.

Why Work With Digital Estate?

We only use the highest quality SEO tactics to rank local business websites for our clients. No spam, no automated tools and definitely nothing black hat!

We use quality on-page seo and outreach for contextual links from real blogs with high metrics. No matter what package your client opts for, they get the best quality work available for that budget using outreach, high trust flow local directories and perfect on-page seo.

Each client goes through a rigorous test phase in the first month where we find and disavow bad links, provide optimised meta details, provide a full on-page SEO cleanup and setup monthly reporting. This alone sets a website up for success. Once the quality links start rolling in it's smooth sailing up the SERPS.

Here's The Deal

This table breaks it all down detailing what each package includes and what you get paid. No matter if you refer the client or go with white label, the prices here are fixed and you get paid!
